Describe how assessment results and reflection on those results have led to improvements.

One factor that is negatively impacting assessment performance are the number of Fs assigned to those students who did not drop or were not dropped and did not attend or participate in the course. Many of these should be Ws. Another factor was instructional. The department did not reach its assessment goals for History 2A and 8A for Spring 2015, and that outcome is tied to the instructor assigned to those sections. Faculty Evaluations revealed a deficiency in the quality of instruction. As result, a change was made for the Fall 2015 semester.

Department just completed the AAT for History spring 2014. The data indicates that the History department is healthy and is meeting the goals of the department and institution. The process resulted in a reexamination of the department's course offerings. To align the department with the overall goals of the college and evolve the department to a 21st century Bay Area college, the department will be expanding our ethnic studies component of the department. By Fall 2016 the History department will reintroduce History 5 (History of Mexico) and History 17 (Mexican American History).
