New Canvas Features

- **Mute Notifications:** Mute notifications in individual courses. [Tutorial here.](#)
- **Limited Submission Attempts:** Limit the number of submissions that can be made for a Canvas assignment. [Tutorial here.](#)
- **Canvas Confetti:** Generate a virtual celebration when students submit assignments on time. [Tutorial here.](#)
- Want more updates on new Canvas features? Visit the [Canvas release notes.](#)

New Blueprint Template

Peralta has a new and improved Blueprint! A blueprint is a template that is uploaded into every class in Canvas. In your Summer and Fall 2020 course shells, you will find an updated:

- Homepage
- Syllabus page
- Module template
- Student resource module
- Instructor resource page

If you do not want to use these resources, you can easily [delete them](#) and add your own. If you are copying content from a course shell prior to Summer 2020 with old blueprint items, delete the items before copying content over to avoid duplicates.
