

Contact Information for Student Accessibility Services at all Peralta Colleges

It is important to meet with the Student Accessibility Services (SAS) office at **every college or university you attend** in order to request your disability related academic accommodations. Please contact your colleges' SAS as soon as you know you will be requesting accommodations to begin the process of applying for services. You will need to provide copies of your verification of disability to each campus.

Disability Accommodation Services at Peralta Community College District Campuses:

Berkeley City College
