COLLEGE OF ALAMEDA

April 2021 Newsletter

The CVC Exchange
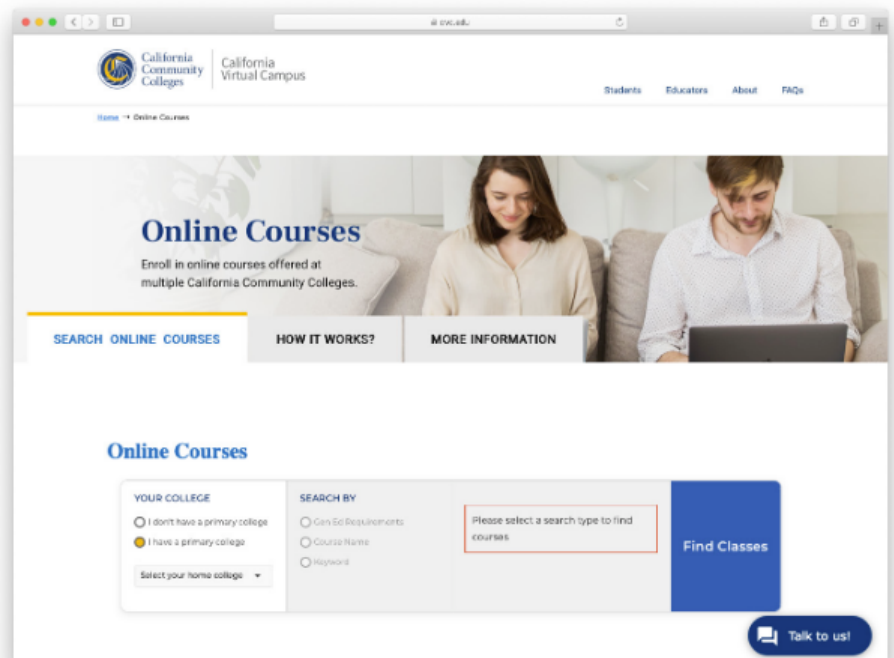

What is the CVC Exchange?

The **CVC Exchange** is a student-centered online search tool that allows California Community College students to cross-enroll in online courses across all 115 colleges without filling out a separate application. Students are allowed to enroll in a maximum of two courses outside their home college. 58 California Community Colleges completed or are working on IT implementation. All four Peralta Colleges, including College of Alameda, started Phase 1 of the three-phase implementation process this Spring. Follow future newsletters for updates on progress and completion timelines.

How does it help students?

- Provides equitable access to thousands of online courses system wide.
- Supports timely degree or transfer completion.
- Financial aid information and academic transcripts are automatically transferred between colleges, eliminating administrative burden on students.
- Courses cost the same as a student's home college and the Exchange is free to use.
- Classes students take across the system appear in the student's home college Canvas dashboard.

How does it help colleges?

- Fills extra class seats to maximize enrollment and minimize class cancellations.
- Expedites degree completion by allowing students to fill schedule gaps.
- Home colleges receive completion credit for courses.
- Counselors can use it as a planning tool with students.
- Aligns with the Chancellor's Office *Vision for Success*.

Removal of Zoom Cloud Recordings

To prevent exceeding limits on the short-term cloud storage included with your free Zoom Pro account, the CCC Chancellor's office will **delete old Zoom cloud recordings created before August 15, 2020** on June 30, 2021.

To prevent exceeding limits on the short-term cloud storage included with your free Zoom Pro account, the Chancellor's office will **delete old Zoom cloud recordings created before August 15, 2020** on June 30, 2021.

If you wish to **retain recordings** created prior to August 15, 2020, please remove them from Zoom's temporary cloud storage and save them on your computer, Google Drive, or OneDrive **before June 30, 2021.** You will need to replace content links with new reference links if you still need to share that content. Please note recent Zoom recordings *after* August 15, 2020 will *not* be affected by this.
Start now to proactively manage your Zoom recordings and retain any you need for future use by moving those recordings to alternate long-term storage.

Chancellors Office FAQ's

HOW TO MANAGE YOUR ZOOM CLOUD RECORDINGS

3 Simple Steps

1. Decide

DECIDE which recordings you need to keep long term. Review all recordings in your TechConnect Zoom account and determine which need to be used again or saved, and which can be discarded.

2. Download

DOWNLOAD recordings you need to keep. Manage the recordings you decided to use again or save by downloading them locally to your desktop; then move them to a different storage repository for later access. For example, recordings could be moved to OneDrive if your institution has Office 365 available.

3. Delete

DELETE recordings you no longer need. Be sure to delete all the recordings that you no longer need from your Zoom account, along with all those that you downloaded to your desktop. Make a habit of doing this regularly.

ONLINE TEACHING CONFERENCE

June 21-23, 2021
Virtual Online Event
CLICK HERE TO REGISTER

The Online Teaching Conference is a non-profit event funded under a California Community Colleges Chancellors Office grant. It is a premier gathering of faculty, staff, and administrators who are leading the way in developing innovative and effective online education. It is an inter-segmental conference focused on curriculum, pedagogy and technology to improve online instruction, learning, and student success.

@ONE provides training and professional development to support the effective use of digital tools and platforms to make California Community Colleges a nationally recognized leader in online teaching and learning. With the rise of synchronous/live online courses, @ONE added a **NEW course** this year to their summer offerings, **Introduction to Live Online Teaching & Learning (1 unit)**.

This course covers effective practices for scheduling, conducting, and sharing live sessions to support the diverse needs of community college students.
